773-755-6339

Parking available in the Children's Memorial Hospital
Parking Garage 2316 N. Lincoln Ave.

2011-2012

CHICAGO Neural Repair Club

*An Informal Scientific Forum
Hosted by the CMRC Neurobiology Program*

MONDAY
September 26, 2011

"Temporal correlation in brain electrical activity: implications for epilepsy."

Wim van Drongelen, PhD

Professor
Departments of Pediatrics, Neurology, and
Computational Neuroscience Computation Institute
University of Chicago

MONDAY
October 24, 2011

"Epigenetics in neural development and diseases."

Qiang Chang, PhD

Assistant Professor
Departments of Genetics and Neurology
Waisman Center
University of Wisconsin-Madison

MONDAY
January 23, 2012

"Myelin repair."

Brian Popko, PhD

Jack Miller Professor of Neurological Disorders
Director, The University of Chicago Center for
Peripheral Neuropathy
Associate Chair for Research
Department of Neurology
University of Chicago

MONDAY
February 27, 2012

"Krabbe leukodystrophy: more than a white matter disease."

Ernesto Bongarzone, PhD

Associate Professor
Myelin Regeneration Group at the
College of Medicine
University of Illinois-Chicago

MONDAY
March 12, 2012

"Does axonopathy play a role in Parkinson's disease."

Karen O'Malley

Professor
Departments of Anatomy and Neurobiology
School of Medicine
Washington University
